We Connect

The future of e-mobility

Drawing upon 100 years of interconnect excellence and nearly two decades of innovation in the Electric Vehicle industry, ITT represents a committed partner to today’s e-mobility industry, bringing connection solutions to the market that are truly Engineered for Life.

Global solutions for the EV industry

The ITT difference

• Proven application expertise
• Global capabilities & local support
• Unrivalled customization expertise
• A committed innovator & business partner

About ITT

ITT is a diversified leading manufacturer of highly engineered critical components and customized technology solutions for the energy, transportation and industrial markets. Building on its heritage of innovation, ITT partners with its customers to deliver enduring solutions to the key industries that underpin our modern way of life. Founded in 1920, ITT is headquartered in White Plains, N.Y., with employees in more than 35 countries and sales in a total of approximately 125 countries. For more information visit www.itt.com
IEC, SAE and GB/T e-mobility Interconnect Solutions

ITT’s class leading UL and CE certified coupler connector/plugs, inlets, outlets and accessories offer recognized, trusted and proven charging solutions for today’s e-mobility markets. Built in accordance with all key regional standards - IEC 62196 for Europe, SAE J1772 for the Americas and Japan and GB/T 20234 for China they provide a truly global portfolio.

ITT offers a fully comprehensive range of AC charging options— with an industry leading amperage range from 10A to 80A, single and triple phase variants, low contact resistance and a minimum of 10k mating cycles. In addition to off the shelf solutions our EV offering is fully customizable to meet specific requirements and we are able to offer variants on colors, harnesses and terminals.

By using common coupler connector/plug elements such as an ergonomically designed handle, robust contact system, innovative wire positioners and strain relief system ITT is able to serve global industry players with a consistent, recognizable look and feel to support their own product, user and brand experience.

Key features
• Cable options certified and approved to regional requirements
• Sealing to meet and exceed specifications
• Up to 80A AC Charging option
• Low contact resistance
• Minimum 10k mating cycles
• Coupler connector/plug strain relief provides protection from cable overstressing

An e-mobility leader
• A truly global product portfolio
• Extensive customization options
• A track record of EV innovation
• A pioneer in DC fast charging technology

Applications
• Home EV Charging Units
• Public Charging Stations
• Roadside Assistance Trucks
• Fleet Trucks
• EV Mass Transit Vehicles
• Electric Watercraft
• Passenger Vehicles
• Electric Motorcycles
• Electric Agriculture Vehicles

The Gen 2+ Contact System
ITT’s new Gen2+ contact system utilizes a state of the art canted coiled spring design that delivers extended lifetime usage and minimizes mechanical stress, miss alignment and power loss.
IEC electric vehicle charging solutions

ITT’s IEC e-mobility solutions are built in accordance with IEC 62196-1 and 62196-2 standards for single and three phase charging systems.

### IEC performance data

### Key Features
- Drain holes at the bottom of the coupler connector/plug – eliminates latch freezing and includes protective shield from small diameter metal penetration to the wiring.
- Textured coupler connector/plug handle – provides enhanced grip while in use.
- Optional mating face protection – lanyard dust caps options for coupler connector/plug and spring cap options for inlets provide additional protection when connectors are not in use.

**How to order**

**Explanation**

**Connector Series & style**
ECIER - EVC IEC 62196 Type 2 Connector EVSE Rear mount inlet

**Current Rating (Cable size)**
20A, 32A, 63A

**Cable Rating**
2 - Level 2

**Powering System (Connector Voltage Rating)**
1 - Single phase (240VAC)
3 - Three phase (480VAC)

**Cable Length (3 Digits)**
XXX - Length in 0.1m*XXX (017 = 1.7m)
KIT - KIT (Without Cable)

**Sealing Method**
S - Sealed

**Compression Limiter / Metal Inserts in Flange Holes**
0 - Without compression limiter / inserts
1 - With compression limiter
2 - With threaded inserts for front wall mounting (M4)

**Dust Cap / Spring Cap**
A - No dust cap supplied
C - Dust cap stainless steel lanyard (155mm)
D - Dust cap stainless steel lanyard (125mm)
E - Dust cap PA lanyard (155mm)
K - With mounting ring thin (metal inserts M4)
L - With mounting ring (metal inserts M4)
M - Dust Cap PA Lanyard, ring terminal (125mm)
N - Dust cap PA lanyard (125mm)

**Drain Spout**
0 - Without drain spout
1 - With drain spout, without tube
2 - With drain spout with tube, 1m long
3 - With drain spout with tube, 2m long

**Locking Device**
A - No locking device
B - Motorized switch assembly
C - Motorized switch assembly including connector & 300mm cable
D - Motorized switch assembly including connector & 300mm cable & socket contacts on single wires
E - Solenoid 12VDC assembly (cable length 250mm)
F - Solenoid 24VDC assembly (cable length 250mm)
G - Solenoid 12VDC assembly (same as cable length)
H - Solenoid 24VDC assembly (same as cable length)

**Rubber Boot**
0 - No rubber boot supplied
1 - With rubber boot

**Mounting Hole Pattern**
B - 58x61mm
C - 52x52mm

**Flange Gasket**
0 - No flange gasket supplied.
1 - With flange gasket

**Modification Code - If Applicable (3 digits)**
001 to 999 - For customer specific modification

### Explanation

**Connector Series & Style**
- **ECCE** - EVC IEC 62196 Type 2 mode 3 connection cable EVSE coupler to vehicle coupler

**Current Rating (Cable size)**
- 20A, 32A, 63A

**Cable Rating**
- 2 - Level 2

**Powering System (Connector Voltage Rating)**
- 1 - Single phase (240VAC)
- 3 - Three phase (480VAC)

**Cable Length (3 Digits)**
- XXX - Length in 0.1m*XXX (017 = 1.7m)
- KIT - KIT (Without Cable)

**Sealing Method**
- S - Sealed

**Direction of Cable Strain Relief**
- 0 - Straight cable strain relief
- 1 - Angled cable outlet (90° Downwards) (not for 63A)

**Dust Cap**
- A - No dust cap supplied
- B - Dust cap rubber lanyard
- C - Dust cap stainless steel lanyard (155mm)
- D - Dust cap stainless steel lanyard (125mm)
- E - Dust cap PA lanyard (155mm)
- F - Dust cap PA lanyard (125mm)

**Modification Code (4 Letters)**
- ECCV - Connection cable IEC type 2 connector on 2-end
- GBCV - Connection cable GBCV connector on 2-end
- EJCV - Connection cable IEC type 1 connector on 2-end (same connector as J2CE) only 1 phase existing

**Direction of Cable Outlet**
- 0 - Straight cable outlet
- 1 - Angled Cable Outlet (90° Downwards)

**Dust Cap**
- A - No dust cap supplied
- B - Dust cap rubber lanyard
- C - Dust cap stainless steel lanyard (155mm)
- D - Dust cap stainless steel lanyard (125mm)
- E - Dust cap PA lanyard (155mm)
- F - Dust cap PA lanyard (125mm)

**Modification Code - If Applicable (3 digits)**
- 001 to 999 - For customer specific modification

Explanation

**Connector Series & style**
J2IV - EVC SAE-J1772 Connector vehicle inlet

**Current Rating (Cable size)**
- 20 - 20A
- 40 - 40A (level 2 only)
- 75 - 75A (level 2 only)
- 80 - 80A (level 2 only)

**Cable Rating**
- 1 - Level 1
- 2 - Level 2

**Powering System (Connector Voltage Rating)**
- 1 - Single phase (120V AC for level 1, 240VAC for levels 2)

**Cable Length (2 Digits)**
- XX - Length in ft. (17 = 17ft)
- KIT - KIT (Without Cable)

**Sealing Method**
- S - Sealed

**Compression Limiter / Metal Inserts in Flange Holes**
- 0 - Without compression limiter / inserts
- 1 - With compression limiter
- 3 - With threaded inserts (M5)

**Dust Cap / Spring Cap**
- A - No dust cap supplied.
- C - Dust cap stainless steel lanyard (155mm)
- D - Dust cap stainless steel lanyard (125mm)
- E - Dust cap PA lanyard (155mm)
- G - With spring cap (Opening to left)
- H - With spring cap (Opening to right)

**Drain Spout**
- 0 - Without drain spout

**Locking Device**
- A - No locking device

**Rubber Boot**
- 0 - No rubber boot supplied
- 1 - With rubber boot

**Mounting Hole Pattern**
- A - Standard pattern

**Flange Gasket**
- 0 - No flange gasket supplied

**Modification Code - If Applicable (3 digits)**
- 001 to 999 - For customer specific modification
GB/T electric vehicle charging solutions

ITT’s GB e-mobility solutions are built in accordance with GB-T 20234 standards for charging systems.

Key Features
- Drain holes at the bottom of the coupler connector/plug – eliminates latch freezing and includes protective shield from small diameter metal penetration to the wiring.
- Textured coupler connector/plug handle – provides enhanced grip while in use.
- Optional mating face protection – lanyard dust caps options for coupler connector/plug and spring cap options for inlets provide additional protection when connectors are not in use.

- KIT - KIT (Without Cable)

**Sealing Method**
- S - Sealed

**Compression Limiter / Metal Inserts in Flange Holes**
- 0 - Without compression limiter / inserts
- 1 - With compression limits
- 3 - With threaded inserts (M5)

**Dust Cap / Spring Cap**
A - No dust cap supplied
C - Dust cap stainless steel lanyard (155mm)
D - Dust cap stainless steel lanyard (125mm)
E - Dust cap PA lanyard (155mm)
F - Dust cap without lanyard, Sealing on OD
M - Dust Cap PA Lanyard, ring terminal (125mm)
N - Dust cap PA lanyard (125mm)

**Drain Spout**
- 0 - Without drain spout
- 1 - With drain spout without tube
- 2 - With drain spout with tube, 1m long
- 3 - With drain spout with tube, 2m long

**Locking Device**
A - No locking device
B - Motorized switch assembly (No male connector supplied for locking device).
C - Motorized switch assembly including connector & 300mm cable
D - Motorized switch assembly including connector & 300mm cable & socket contacts on single wires
E - Solenoid 12VDC assembly (cable length 250mm)
F - Solenoid 24VDC assembly (cable length 250mm)
G - Solenoid 12VDC assembly (same as cable length)
H - Solenoid 24VDC assembly (same as cable length)

**Rubber Boot**
0 - No rubber boot supplied
1 - With rubber boot

**Mounting Hole Pattern**
- A - Standard pattern

**Flange Gasket**
0 - No flange gasket supplied

**Modification Code - If Applicable (3 digits)**
001 to 999 - For customer specific modification

Additional ITT Veam and Cannon products for e-mobility applications

APD SERIES
This full-plastic, proven bayonet series with IP69K sealing and color and mechanical coding is an ideal solution for harsh environments that require high sealing grades.

TRIDENT SERIES
This versatile range of metal and plastic electrical connectors with fully interchangeable contacts is available in rectangular and circular configurations, supporting the widest variety of harsh-environment applications.

SURE SEAL SERIES
These watertight, chemical and ozone-resistant connectors feature a simple, one-piece, molded elastomeric body that ensures they are easily serviceable in the field, whatever the conditions.

CTC SERIES
This series was designed as a high-performance, cost effective cable-to-cable solution for use in applications where reliable signal circuits are critical to operating performance.

CLC/SLC SERIES
The super tough, environmentally sealed Snap Lock and Clip Lock Circular series are designed to ensure a tightly sealed connection that can withstand extreme heat, shock and vibration.
