

OCS 1.5 Unsealed Connection System

ROBUST design features for enhanced warranty performance and designed-in durability

Optimal Component Series (OCS) 1.5 Unsealed Connection System is engineered for enhanced warranty and reliability performance expected in today's passenger vehicle applications.

OCS 1.5 Sealed Connection System's compatibility with industry standard mating housing interfaces and terminal cavities enables easy integration for OEMs and their tiered suppliers.

The unsealed system includes:

- Female housing
- Male housing
- Primary Lock Reinforcements (PLR)
- Optional Connector Position Assurance (CPA)
- Female terminals
- Male terminals

► Typical Applications

OCS 1.5 Unsealed Connector System is designed for the following markets:

- Automotive
- Transportation

► Performance Specifications

	OCS 1.5 mm Unsealed Series
Cable range	0.13 mm ² to 2.0 mm ²
Temperature range	- 40°C to 105° C
Resistance	< 8.0 mΩ
Voltage drop	< 8.0 mV/A
Centerline spacing	3.50 mm
Blade width	1.50 mm

*OCS 1.5 Unsealed Connection System
2 through 16-way female and male mating housing pairs
Female and male mating terminals*

The general application guidelines above are for reference only and may not account for all variables that would be present in an actual application. For additional detailed product performance information, contact Delphi.

► Availability

OCS 1.5 Unsealed Connection System is released for production. Manufacturers can contact Delphi for information regarding:

- Samples
- Specifications
- Validation results
- Benchmark testing

► Benefits

Housings

- Full portfolio family: 2, 3, 4, 6, 8, 10, 12, 16-way unsealed hand mate female and male housings
- USCAR interface standards + 2 for 6 total indexes for expanded application flexibility
- USCAR EWCAP-002 cavity standard for easy product integration
- Polyester housings for enhanced audible click for operator build feedback and dimensional stability in all seasons
- USCAR clip slot

Terminals

- Tin and silver plated female and male terminals
- Robust female terminal contact tongue overstress protection and contact nose protection
- USCAR blade standard 0.8 mm male terminal thickness
- 0.13 mm² to 2.0 mm² copper cable range
- Terminal crimps validated to SAE/USCAR-21
- Superior 6+ sigma projected terminal reliability at 150,000 miles (241,401 km) per USCAR-20 life test
- Aluminum cable compatible

OCS 1.5 Sealed Connection System is validated for 125°C on engine and transmission temperatures, on engine vibration profiles and sealed high pressure spray vehicle applications.

► The Delphi Advantage

Delphi is one of the world's top automotive suppliers of advanced terminals, connectors, sealing, wiring and cable products. Delphi's deep understanding of various connection system technologies and the company's vast research and development capabilities have enabled continuing innovation.

Delphi is a source for high value solutions and our expertise is built into every product. Delphi has a thorough understanding of markets around the world and a global network of resources. Delphi relies on its global capabilities, consistent processes, and extensive testing to develop and manufacture a comprehensive offering of terminals, connectors, sealing, wiring and cable products. The result is that Delphi provides customers with robust, reliable products and world-class quality.
