

August 1, 2018

**Subject: United States Trade Representative, Section 301, Trade Act of 1974**

Dear valued customer,

As communicated in our July 10 correspondence, starting today **Arrow will begin passing on the [assessed tariffs](#)** on the 53,000 unique parts where China has been identified as the country of origin. These tariffs may range up to 25% depending on the supplier, and charges will be added to our invoices as **separate line items for clear visibility**.

As always, Arrow is committed to providing an exceptional customer experience, and we have shared the [List 1](#) parts impacted by the tariffs with our customers. Meanwhile, we will continue efforts to engage with industry trade organizations and supplier partners to minimize supply chain disruption. As the U.S. Trade Representative makes final recommendations, your Arrow sales representatives will provide you with updates on impacted parts related to your business with us.

We appreciate your continued support. Please contact your Arrow sales team at any time with questions or feedback. If you have specific questions about the USTR Section 301 tariffs, please send them to [chinatariff@arrow.com](mailto:chinatariff@arrow.com).

Sincerely,

**John Drabik**  
President
